

Erratum: “A Web-Based System for Bayesian Benchmark Dose Estimation”**Kan Shao**  and **Andrew J. Shapiro**Environ Health Perspect 126(1):017002, (2018), <https://doi.org/10.1289/EHP1289>

In Equation 4, there should be no exponent “2” at the end of the equation. The correct Equation 4 reads as follows:

$$\log [p(Data|\theta)] = -\frac{N}{2} \log (2\pi) - \sum_{i=1}^G \left\{ \frac{n_i}{2} \log (\gamma^2) + \frac{n_i \times \{\bar{y}_i' - \log[f(d_i|\theta')]\}^2 + (n_i - 1) \times s_i'^2}{2\gamma^2} \right\}.$$

The authors regret the error.
